

You focus on finding talent

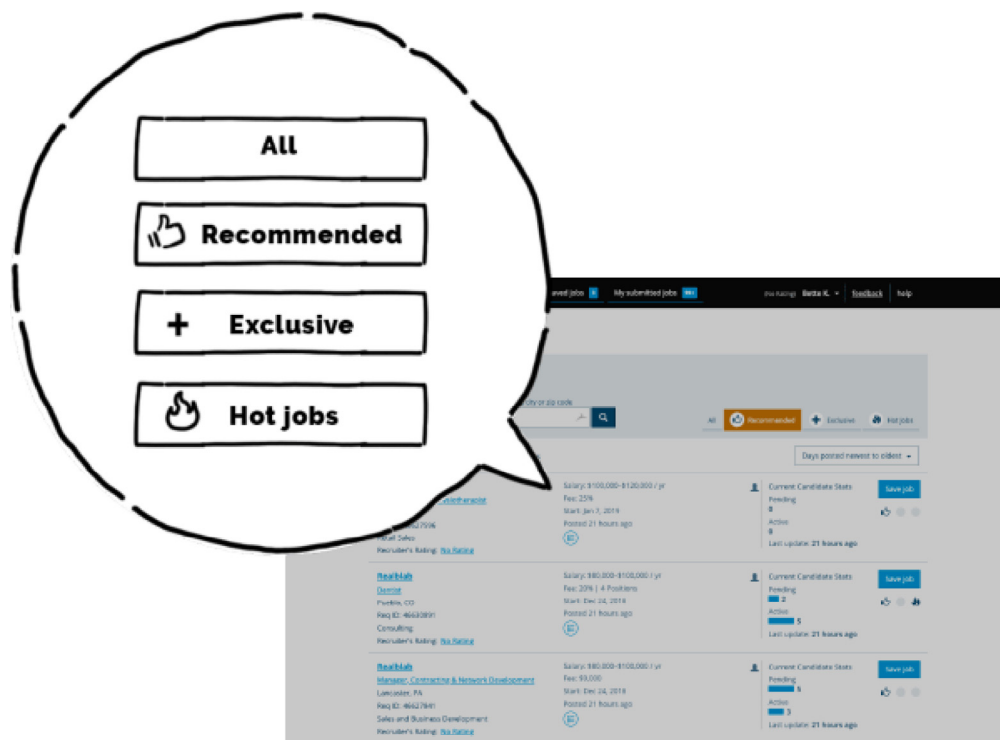

Making more placements? It's not rocket science, it's computer science. Here's how we help recruiters make more money in less time.

HOW IT WORKS

Our AI-driven platform dives into your backstory to get a better sense of your sweet spot – the types of positions you’re most likely to fill.

2. We serve up targeted openings

Jobs come straight from the employer’s ATS platform, with our machine learning engine suggesting the specific openings we know are

The image shows a screenshot of the Scout Connect 'Submit Candidate' form. A circular magnification highlights the input fields for 'First Name', 'Last Name', 'Email', and a 'Submit' button. The form includes a job listing for 'ReqId:ab', 'Secret Information Security Engineer', 'Dearborn, Michigan', 'Permanent | Req ID: 1800005', 'IT and Computer', and a 'Recruiter's Rating' of five stars. The form fields are: 'First Name' (Al), 'Last Name' (Johnson), 'Candidate Email' (ajohnson@sample.com), 'Resume' (with a 'Choose file' button), 'Fee' (15%), and 'Candidate Summary (optional)' (Candidates desired salary range, availability, etc.).

3. Streamlined Applicant Process

You submit qualified candidates and communicate with employers all the way through hiring right within Scout – so no more crossed wires or outreach hassles.

Ready to see how Scout can help simplify the hiring process,
save you money and find better talent? Let's talk.
