Placon's Fresh 'n Clear GoCubes recycled PET square or "cubed" containers can be combined with our universal 2, 3 or 4-compartment insert trays to offer more versatility and merchandising options than you've ever had from a thermoformed food container. Select GoCube bases are compatible with our SnackCube on-the-go tray and can be used as an insert to hold your ingredients to use when ready. Available in a variety of sizes ranging from 6 ounces up to 80 ounces. GoCubes bases can be used alone or with an insert tray letting you separate and highlight specific ingredients while keeping foods looking better and lasting fresher, longer. The inside fit or over cap lid options made from our EcoStar post-consumer, 100% recyclable PET offers you a secure seal with easy opening tabs and anti-fog technology.

Please check samples you wish to receive, then click the Request a Sample button to place your order.
