## UKHP U-100 Lavalier Hands Free Clip-on Microphone for DSLR, Smartphones - Black

Product model: U-100/Black

NOTE: two batteries are included in the package, one of them is already installed in the microphone, if you run out of the battery, you can use the spared one inside the package.

"OFF" is for smartphone mode, "ON" is for DSLR camera mode, make sure use the right mode to match your device. It's normal that a big noise might happen when plugging a microphone into a camera in auto volume mode, don't worry, just decrease the volume a bit and the noise should go away.

ONE FOR ALL: The 3.5mm TRRS Jack is compatible with computer, Apple products, Android & Windows Smartphones, a 6.5mm adapter is also included, ideal for those who use DSLR, camera, headset and professional audio devices, like Canon EOS Digital SLR Camera, Canon PowerShot, Nikon Coolpix Digital Camera and so on.

There is a tremendous difference between capturing sound using camera or phone's built-in microphone and recording and utilizing an external microphone. More advanced configuration and 236 inches long cord helps to record Clear and Nice sound when interviewing, live broadcasting on Podcast, calling with Skype, Teaching, Audio/Video Recording on YouTube and so on.

Extremely lightweight: We go above and beyond when it comes to material selection. Mini metal clip allows you to easily clip it to your collar, tie or pocket. We use state of the art lightweight materials to ensure you barely even notice the mic is there

Contents included:

- 1x Lavalier Microphone (236" long cable)
- 2x Button Batteries (one as a spare)
