Berri-Magic® Royalty Holly Combination

Ilex x meserveae 'Blue Prince' & 'Blue Princess'

Sku #4513

A profusion of bright red berries fall through winter is assured because a male pollinizer is planted in the same container. Dense, dark blue-green foliage on blue-purple stems creates a beautiful specimen or hedge; tolerates shearing well. Long lasting ornamental fruit is great for use as a holiday decoration. Evergreen.

Light Needs **Partial to full sun**

Water Needs **Water regularly - weekly, or more often in extreme heat.**

USDA Zone **5 - 9** 📍 Grows in your zone: **9** [Change](#)

Design Ideas

No pollinator is needed to enjoy the spectacular berries of this Holly. Its foliage makes a perfect backdrop for light-colored plants. Plant as single specimen (gorgeous under snowfall) or line it up for a reliably dense hedge. Use to soften unsightly corners of fences or buildings, or plant at the back of shrub and perennial borders for reliable year-round foliage. Leave untrimmed to attain full height and width for screens or to disguise utilities.

Companion Plants

Lily of the Valley (Pieris); Snowberry (Symphoricarpos); Azalea (Azalea); Mountain Laurel (Kalmia); Hydrangea (Hydrangea)
