Learn what our happy stairlift owners say...

If you want to know how an Acorn Stairlift can transform your life, don't take our word for it — see what our customers have to say...

"Acorn had best presentation and best design idea for our curved staircase. 2 other companies we got bids were using unfamiliar subcontractors (not the mfg. of the stairlift). A local med. equipment co discouraged us from even thinking about it because "stairlifts" were unreliable and they had quick installing them. The primary reason we went with Acorn was dealing directly with the mfg. and Acorn employees no subcontractors. So far, the thing is working very well!"

Straight Stairlifts

The Acorn 130 Stairlift A straightforward solution for straight staircases.

A straight stairlift is the ultimate staircase solution, giving you the full use of the home you love. Blending seamlessly into your home, with a smooth start and stop mechanism, you can glide effortlessly up and down the stairs.

Continually developed, improved and refined over many years, the Acorn 130 is the direct descendant of our very first straight stairlift, the Acorn Superglide. **Contact us** for FREE no obligation advice and speak to one of our friendly experts.

Stairlift Hinged Rail Option!

All Acorn Stairlifts are available with a unique hinged rail option, designed to eliminate any obstruction or trip hazard at the foot of the stairs. Acorn Stairlifts have all the features you need, and none you don't!

Curved Stairlifts

The Acorn 180 Curved Stairlift Welcome to one of the most innovative stairlifts in the world.

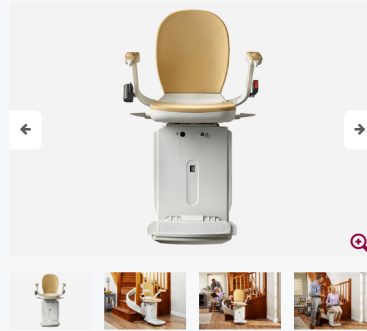

Designed from the ground-up for any curved staircase, this curved stairlift offers a comfortable and reliable ride. The advanced self-leveling carriage moves along the modular rail system, coming to a soft stop with ease.

With its low running costs, it even operates through a power cut. The sleek, smooth and modern rail system is unique to this stairlift. There is no waiting weeks to have an expensive rail made for your home. Utilising the **FastTrack® system**, it can be installed in a matter of days with no mess and no fuss.

To learn more about our curved stairlift prices and installation, contact us to get your free stairlift quote from Acorn Stairlifts or simply for more advice.

Stairlift Hinged Rail Option!

Automatic powered hinges can be fitted when there is an opening or doorway at the foot of the stairs. An automatic powered hinged rail solves this problem. Acorn Stairlifts have all the features you need, and none you don't!

Bespoke Stairlift Installation

- ✓ Installed within days
- ✓ Highly-trained trusted technicians
- ✓ Help desk 365 days a year

Unlike some stairlift companies, we can complete your Acorn Stairlift installation within just a few days of you giving us the green light – next day installation is available in some areas if it's really urgent. And that goes for more complex curved stairlifts as well as straight ones.

Acorn's unique and revolutionary FastTrack® system means even the most complex stairlift configurations can be fitted on site by our skilled engineers in just a few hours. There's no need to wait weeks for a one-off rail to be designed and built in a factory then despatched to your home, with no option to modify on site if it's not quite right.

Once your stairlift is fitted, our engineer will put it through a thorough testing procedure making sure everything is working just as it should be. Every component is

Once your stairlift is fitted, our engineer will put it through a thorough testing procedure designed to make sure everything is working just as it should be. Every component is checked and double-checked for optimum performance. Only then will our engineer guide you step-by-step through the operation of your new Acorn Stairlift, which is designed for simplicity and ease-of-use.

"I am now able to use the stairs whenever I want to with ease and comfort. The stairlift was installed and ready to use within four days of the initial enquiry."

Mr Sayers

Your stairlift installation will only be complete when you are 100% happy and totally familiar with how to operate your new Acorn Stairlift. You won't even need to reach for the vacuum cleaner, as all our engineers clean up after themselves. You wouldn't even know they'd been, if it wasn't for your gleaming new Acorn Stairlift.

And remember, even after your engineer has left, help from Acorn is just a free phone call away, 365 days-a-year, should you ever need it.

Please [click here](#) to download our quick user guide to help get you started using your Acorn stairlift.

Contact us for FREE no obligation advice and speak to one of our friendly experts.

Toll-FREE: 1-866-873-6574

FastTrack

Installation

Acorn Stairlift's FastTrack® stairlift system has proven extremely successful, enabling Acorn to install curved stairlifts within days of an initial customer inquiry; far faster than any other stairlift manufacturer.

The installation itself can take as little as an hour for a straight stairlift and just a few hours for a curved one.

Our skilled installation engineer will arrive with all the equipment they need on their van, which is a mobile stairlift workshop.
