NYMBUS SmartCore is a digital-first technology platform that enables financial institutions to offer a customer-centric banking experience.

THE FINANCIAL SERVICES MARKET IS BEING REDEFINED BY THE SHIFT OF CUSTOMER EXPECTATIONS.

Banking relationships are moving from branch to digital channels. However, financial institutions are having a hard time meeting customer demand due to their dependency on legacy technology solutions that were built to serve a brick and mortar banking model.

NYMBUS SmartCore is a modern platform built to meet the banking experience demands of today's digital-first customer. The customer-centric platform unifies all the required banking functions into one system, enabling an omnichannel customer experience with automation and simplification of back-end processes and workflows.

financial organizations such as retailers have begun to realize the value of participating in these partnerships to deepen their own relationships with consumers while offering potential new profit streams.
