# Bosch Bluehound

## Asset Management System

Feedback Chat now!

## Built for Construction. Built for Productivity.

### Your Jobsite will never be the same.

Bosch Bluehound is the premier asset management and tracking solution, boosting productivity and transparency from warehouse to jobsite. With the help of our web portal and mobile application, you can track, manage and localize your work assets at any time.

The Bluehound system offers:

- Asset location tracking
- Asset documentation
- Asset assignment (employee, sites, job-box, warehouse)

**KEITH**  
INVENTORY MANAGER

*"We had no visibility to where our tools were assigned. Bluehound brings accountability back to the job-sites."*

**MATT**  
SUPERINTENDENT

*"We were looking for a system on tracking and knowing where are equipment is... From what I have seen this system is way better then what is out there."*

**GEORGE**  
INVENTORY COORDINATOR

*"We had no idea where or how many tools were assigned to a given jobsite. With Bluehound we can now run realtime reports to understand utilization of our tools."*
