Won't let me edit my own presentation. License features vs. App functionality are unclear. Very disappointed with this app. Too bad, prezi used to be my favourite tool for presentations...

Guy Beards

10

Very useful to be able to display from portable device, although a shame can't edit

Kirk

★ ★ ★ ★ ☆   October 16, 2019

Very convenient to use and grab presentations.

Downloading and installing the desktop app

Installation and system requirements

The installation of Prezi Next requires about 650MB but can vary by 1-2MB from one release to the next.

> ☝️ **Note:** The Prezi Next desktop app is available for download on both Windows and Mac and can be used with a Prezi Next Plus or higher license. Luckily it's a breeze to upgrade your license and get access to this and all the other great features our Prezi plans have to offer.

Minimum requirements for running Prezi Next

Windows: Windows 7 SP1 or newer with updated drivers, DirectX 9 or higher, and a minimum of 4 GB RAM
Mac: OS X 10.11 or higher with a minimum of 4 GB RAM

> ☝️ **Note:** Prezi Next is not officially supported on Linux.

Downloading

You must be logged in to your Prezi Next account to begin downloading the app. If you are already logged in, you can download the Prezi Next desktop app for Windows or Mac here.

To log in:

1. Go to www.prezi.com and click **Log in**.
2. Enter your email and password and click **Log in**.

System requirements

Presenting and viewing a presentation offline

Troubleshooting firewalls and security settings

From your dashboard, click **Get the Prezi Next app** in the bottom left corner of your screen.

> ☝️ **Note:** The download will start automatically. If it doesn't, click restart the download. It may take a few moments depending on your Internet connection.

Installing

Once the download completes, locate and open the file on your computer to begin installing Prezi Next. You can access the file directly from your browser or by opening the saved file on your computer.
