Portable shed large enough to park a car in.

Great Product, if something is not correct, they go out of their way to make it right. Good company to work with.

also purchased two ten foot wide garages. The extra two feet allows for more "wiggle room" inside while getting in and out of the car. Our situation may be different than most. We lost our house in a fire in Malibu last November, but decided to remain on the property, so quick temporary garage replacement was our foremost need after the house trailers came in.

now there are leaks at to supporting bars at the beginning of the roof line. This was the light-duty cover I'm very impressed how well it held up. This is my first review of any product that ever bought because I'm extremely impressed with it.

and water sports items. The double entry doors are really great for usage. I only wish I bought a bigger one. The directions good be better but I built this by myself in about 4 hours. I would like to see a feature to hang items from the ceiling. I actually bought 2 tow straps and made my own loft where I store a 3-man tube. Works great!

Customer Service · 5 days ago

Hello,

This will depend on the size you configure. Unfortunately, we do not have access to the size of the shelter you have built. Please provide the overall dimensions and we can then provide this figure.

Thanks in advance

How would one fasten to wood timbers?

Answer this Question

Customer Service · 8 days ago

Hello,

The middle legs have foot plates with pre-drilled holes which can be anchored down to wood timbers with wood lags. If you have any additional questions or concerns feel free to start a live chat or call us at 1-800-932-9344.

Is the hardware to secure to the ground included in all models?

Answer this Question

Customer Service · a month ago

The four anchors in this kit are temporary anchors and we recommend you purchase more permanent anchors designed for your surface type. We do offer various types of anchors for different types of soils. For more details please visit the link below or give us a call at 1-800-932-9344.
