Planting for Success

- DIG HOLE.** Two times width of pot.
- PREPARE SOIL.** Combine planting mix and soil. Add a slow release starter fertilizer.
- SET PLANT.** Place plant in hole so top of root ball is slightly above ground level.
- BACK FILL.** Pack soil gently but firmly, and form a berm.
- WATER TO SETTLE.** Add more soil as needed, water again.
- FINISH.** Add a 1/2" layer of mulch.

Care Instructions

Provide enriched, well-drained soil that is moist but not soggy. Apply mulch to conserve moisture and protect in harsh winters. Water deeply, regularly in first growing season to establish extensive root system. Once established, water as needed to maintain evenly moist soil. Feed in early spring. Blooms on old wood; prune after flowering.

Monrovia plants are grown in our custom-blended, nutrient-rich soil, giving them a healthy start for your gardening success.

WORKS
WELL
WITH

A superb flowering shrub to use as a showy accent or specimen, or for perennial borders in semi-shaded areas. Desired for its abundance of splendid, violet-pink, large, mophead flower clusters and handsome, glossy green foliage on a boldly branched, rounded form. Excellent flowers for cutting. Deciduous.
