SPECIAL FEATURES

Planting for Success

- DIG HOLE.** Two times width of pot.
- PREPARE SOIL.** Combine planting mix and soil. Add a slow release starter fertilizer.
- SET PLANT.** Place plant in hole so top of root ball is slightly above ground level.
- BACK FILL.** Pack soil gently but firmly, and form a berm.
- WATER TO SETTLE.** Add more soil as needed, water again.
- FINISH.** Add a 1/2" layer of mulch.
- BE PROUD** and share your planting success with us. Snap a photo and tag [#monroviaplants](#)   

Care Instructions

Follow a regular watering schedule during the first growing season to establish a deep, extensive root system. Provide well-drained soil, rich in organic matter. Feed with a general purpose fertilizer before spring growth. Prune to shape after flowering.

Monrovia plants are grown in our custom-blended, nutrient-rich soil, giving them a healthy start for your gardening success.

Plants with trademarked name must be sold with label attached. Asexual reproduction of plants protected by the Plant Patent Act is prohibited.
