DISTRIBUTION LINES

EXPERIENCE AND EXPERTISE

Linetec handles distribution line construction, system upgrades, and total system rebuilds with the highest safety standards and quality of service. Our team understands your requirements and will provide an excellent solution to fit your specifications.

The tremendous experience and depth of knowledge with our Linetec crews is amplified by our agile and efficient company structure. This winning formula ensures that Linetec constructs and maintains our distribution line projects to an expert standard while minimizing complexity in clients' operations.

Over the years, Linetec's crews have constructed and maintained distribution lines for numerous IOUs, REAs, and municipalities. From this experience, our crews have a unique insight into the needs of each community we serve, leading to a high level of satisfaction for our clients and their customers.

Our Distribution Line Construction and Maintenance Services include:

- Overhead and underground distribution construction, maintenance, and upgrades
- Joint trench installations
- Wire stringing and pole setting
- Emergency storm/disaster service restoration
- Project and construction management
- Cable replacement
- Line relocations
