

Built for Clients™

Pathstone is a family and partner owned advisory firm providing objective advice to families, family offices and select institutions.

Built on the tradition of family office service, trust and transparency.

Whether you are a family, family office or select institution, Pathstone is built to deliver what we perceive is the ultimate client experience.

Built as an independent employee owned firm.

Our teams are completely aligned with your interests and the opportunity for employees to own equity helps us attract and retain top talent to work on your behalf.

Independence enables us to be nimble and responsive to a constantly changing environment to ensure we consistently stay ahead and are responsive to your needs.

Our equity structure provides for our next generation of advisors to purchase equity and therefore establishes a mechanism to keep Pathstone independent and healthy across generations.

Built on the fiduciary standard of always putting our client's interests first.

Service is embedded in our culture. Everything that we do at Pathstone is focused on delivering the best advice and solutions to help our clients achieve their objectives.

If you already have a good understanding of your needs, then skip to the below to build your custom solution package, in just 4 simple steps.

Pathforward: Building a Custom Solution Package

We have developed a methodology, which we call The Pathforward Process, to demonstrate how Pathstone can add measurable value to your specific circumstances. We offer this at no cost. The

results include portfolio, estate, tax and other planning analysis to help you understand where you are and what you need. (See samples)

To get started, we created a simple method for you to build a customized set of services aligned with your specific requirements. This will provide a blueprint for us to follow up to gather the required information to start creating your Pathforward results. We have developed secure systems and non-disclosures to ensure all of your information remains secure and confidential.
