What is Venmo Rewards?

Venmo Rewards is a program for Venmo cardholders that offers cash back on purchases with select merchants. If you have a Venmo debit card, you're enrolled in Venmo Rewards. Offers are automatically applied to your account, so you can start swiping and earning without the hassle. You can find current Venmo Rewards offers in the Venmo Card section of your app.

How do I earn cash back?

You can earn cash back by making eligible Venmo card purchases at select merchants. Current merchant offers are shown in the Venmo Card section of your app. A pending purchase will show estimated Rewards in your feed, but the amount is not disbursed to your Venmo balance until the charge is completed by the merchant. Once the transaction is complete, any earned cash back will be applied to your Venmo account.

Can I earn cash back on online purchases?

Many offers include online purchases. Because each offer is different, you'll want to view the offer details to see if a specific offer includes cash back on online purchases. You can find offer details in the Venmo Card section of the Venmo app.

When will I receive my cash back?

A pending purchase will show your estimated cash back earned in your feed, but the amount is not final until the charge is completed by the merchant. Once the transaction is completed, any earned cash back will be automatically applied to your Venmo account. Transactions typically complete within 1-5 days, but can take up to 30 days depending on the merchant.

Do Venmo Rewards offers expire?

Offers are only available when they are present in the Venmo Card section of your Venmo app. We recommend double-checking your app to make sure a specific offer is still available before making your purchase. The cash back that you receive from completed, eligible transactions will never expire - these funds are placed in your Venmo balance.

Are there any limits to the amount of cash back I can receive?

Certain offers have limits. Each offer is different, so it's important to check the terms for each offer. For more information on a specific offer, you can check the Venmo Card section of the app and click "View Details" on each offer.

What is Dosh?

Venmo Rewards is powered by [Dosh](#). When you make a transaction with your Venmo debit card, Dosh checks to see if it is eligible for a cash back reward. If the transaction is eligible for a reward, Dosh will send cash back to your Venmo balance minutes after the merchant completes the charge.

What information do you share with Dosh?

Venmo and Dosh respect your privacy and take precautions to ensure the security of your data. Venmo shares the minimum amount of data necessary to facilitate cash back fulfillment.

For more information on Dosh's privacy policy, view the terms of service [here](#). You can also check out Venmo's privacy policy [here](#).

Why can't I add my Venmo Card to Dosh?

Venmo debit cardholders are automatically enrolled in Venmo Rewards powered by Dosh. Because you'll already be eligible for Rewards via Venmo, you will not be able to add any Venmo debit cards to Dosh's platform.

Missing cash back? We can help

If you believe you are missing cash back for an offer, we can double-check it for you.

First, make sure that the transaction in question is completed, and not pending. Pending transactions will

show at the top of your Purchases section in the Venmo app. If your transaction is still pending, you'll need to wait until it is completed by the merchant before you can receive any cash back.

If the transaction in question is completed, please [contact us](#) for help.

The Venmo Mastercard is issued by The Bancorp Bank pursuant to license by Mastercard International Incorporated. The Bancorp Bank; Member FDIC. Card may be used everywhere Mastercard is accepted in the U.S. Mastercard is a registered trademark, and the circles design is a trademark of Mastercard International Incorporated.
