

CAPABILITIES

Over the years, we've implemented many new technical capabilities in order to support the most demanding program requirements.

- Two-Shot Molding
- In-Mold Decorative Films and Appliques
- Insert Molding
- Overmolding of Plastics and Metal
- Highly Visible Class A Components
- Functional Components with Engineered Resins

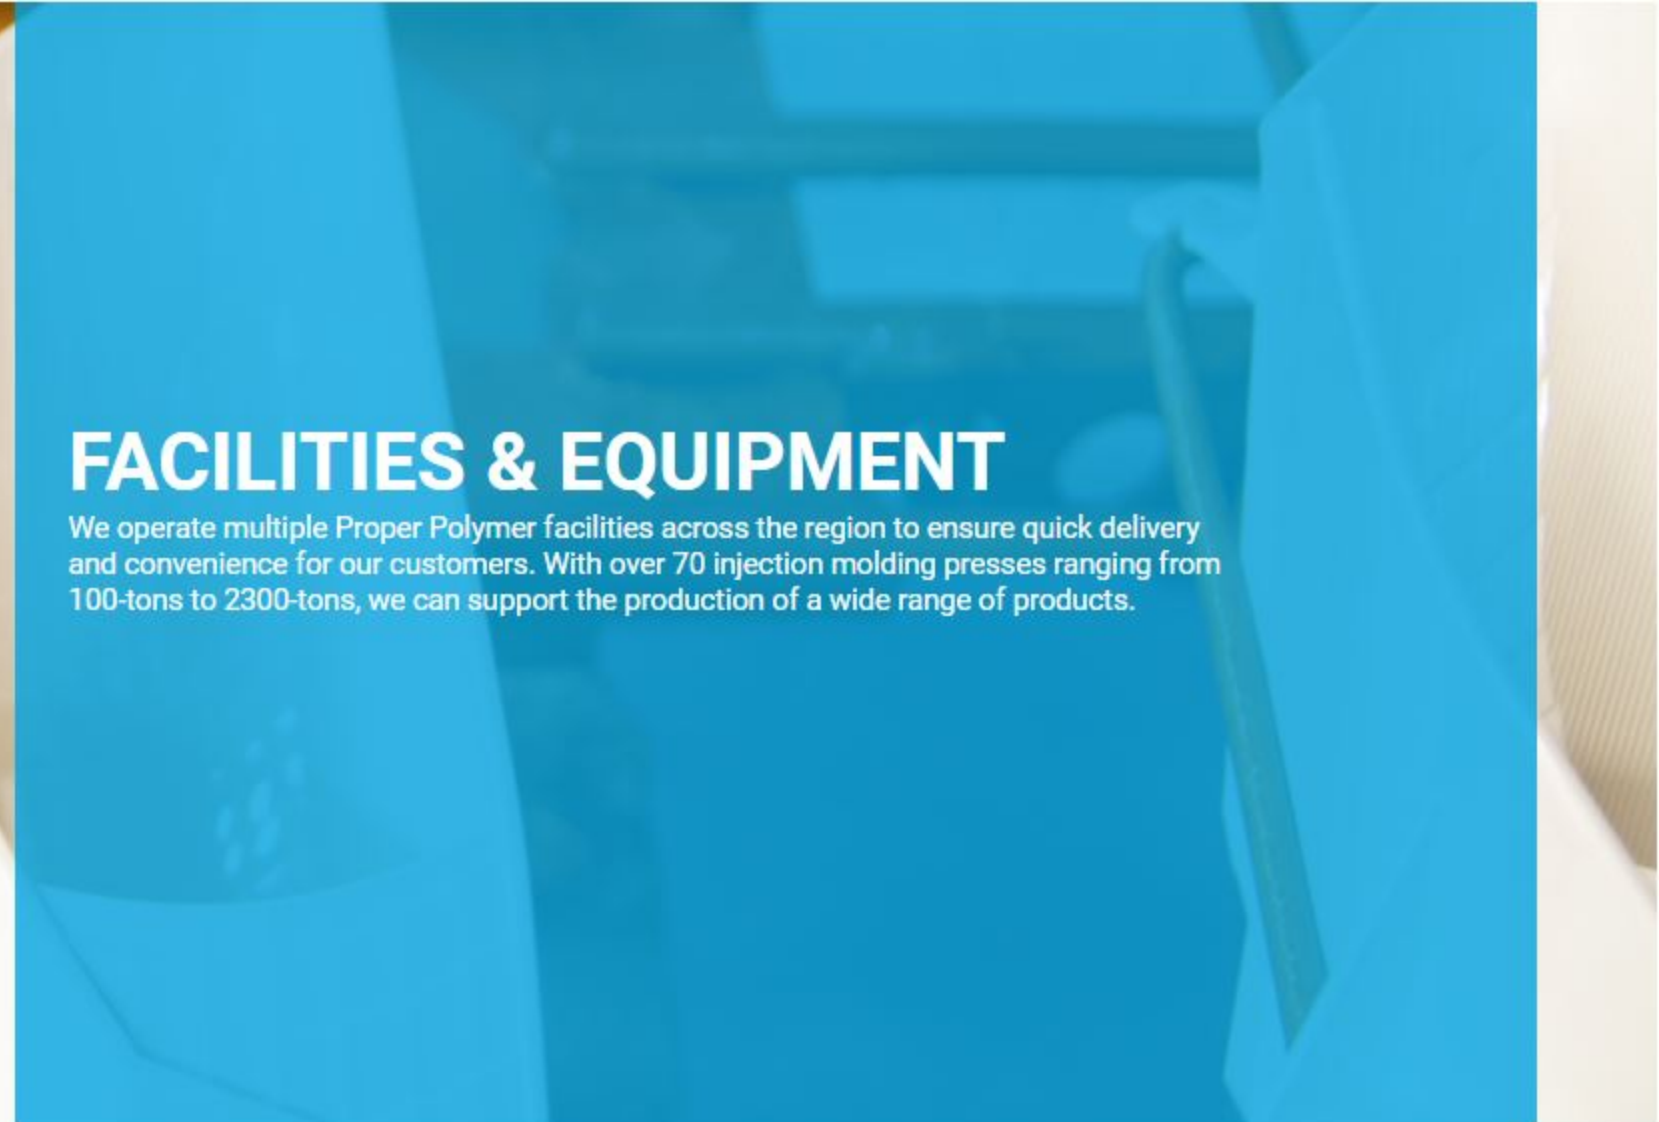

In addition, we also provide a number of assembly and secondary operations, including sonic welding, heat staking, and hot stamping.

FACILITIES & EQUIPMENT

We operate multiple Proper Polymer facilities across the region to ensure quick delivery and convenience for our customers. With over 70 injection molding presses ranging from 100-tons to 2300-tons, we can support the production of a wide range of products.
