**About Crest Audio Pro 9200**

The Crest Audio Pro 9200 6500W Professional Stereo Power Amplifier designed to achieve unsurpassed sonic performance and long-term reliability under extreme stress in touring or fixed installation applications. Absolute sonic accuracy is the hallmark of every Crest amplifier. Bass is solid and defined to the limits of audibility with ample current reserves. Wide-bandwidth output devices ensure detailed, transparent high frequency response. And, thanks to Crest's exclusive IGM circuit, the Pro 200 Series will drive 2ohms loads safely without compromising performance. The ACL (Active Clip Limiting) prevents speaker damage by providing gentle gain reduction when the signal approaches the clipping threshold. IGM (Instantaneous Gain Modulation) monitors speaker loads to detect conditions that may overstress output devices.

This allows safe operation into nominal 2ohms speaker loads. AUTORAMP gradually increases gain to the attenuator level settings when the amplifier is turned on. This prevents abrupt turn-on level. Other protection features include short circuit, DC voltage, comprehensive thermal management and current in-rush turn-on/off; transient sub-sonic input.

**Key Features**

- ✓ Dramatically reduced net weight
- ✓ Dual, variable speed fans
- ✓ Balanced XLR inputs
- ✓ Speakon and 5-way binding post speaker outputs
- ✓ Input sensitivity selection
- ✓ Recessed, stepped attenuators
- ✓ Front panel circuit - breaker switch

## Crest Audio Pro 9200 Features

- Dramatically reduced net weight
- Latest generation of high speed, wide-bandwidth output devices
- Dual, variable speed fans
- Balanced XLR inputs
- Speakon and 5-way binding post speaker outputs
- Mode selector switch for stereo, parallel and bridged- Mono operation
- Input sensitivity selection
- Recessed, stepped attenuators
- Front panel circuit - breaker switch

## What's in the box:

- Crest Audio Pro 9200 Professional Stereo Power Amplifier
- Crest Audio 5 Year Warranty
