Designing Education For Today

What ReSchool Is

ReSchool is not actually a school at all. It's a non-profit organization creating the conditions for more expansive learning. We leverage and reorganize existing assets and resources more purposefully around the needs of kids.

- We work directly with learners, families and communities.
- We conduct research to measure impact and inform next steps.
- We launch new projects to address gaps in the ecosystem.

The ReSchool Mission

To design and launch an inspirational education system that coordinates people and resources in new, dynamic ways, ensuring an experience that is welcoming, empowering, and world-class.

The Opportunity

Youth spend 75% of their waking hours outside of school. Many learners take advantage of this 75% of their time to pursue passions, expand relationships and networks, and develop new skills.

There is growing demand from users - learners, families, and communities - to integrate and validate the learning occurring within *and* beyond school.

The Challenge

Navigating the school part of the education system is already challenging. Adding in out-of-school learning adds a new layer of **complexity** that needs to be addressed.

Access to out-of-school learning is also **inequitable**. Over time, this creates and reinforces gaps in exposure, exploration,

relationships, and opportunities to develop purpose and a sense of self in the real world.
