CHECK OUT OUR NEW ZERO WASTE KITS!

Our 2020 New Year's resolution is LESS WASTE. One of our first steps in doing this has been by eliminating more of the plastic in our home. To help us and others along the way, we've created these ZERO WASTE KITS. We understand there's a LOT of work to be done in conserving our oceans, but we hope you will join us in this cause! If we all join together to start making some simple lifestyle changes, we believe we can make a BIG DIFFERENCE!
