Drop-In Care

For Drop-In care, backup care and adding extra days, we use HoppingIn.com software. This allows us to manage our calendar of available spots.

In order to use drop-in care with us, you will need to bring your child's physical and birth certificate as required by DCFS in order for us to provide care for your kiddo.

On Hopping In - register > add your child > then associate our daycare name with your child, and you'll be ready to book!
