Sabertooth Wet Trim Blade

SKU: SBT-BLD

\$249.00

Quantity

Add to Cart

The Sabertooth blade features long thin wide spaced teeth and a forward angled tip. The angled teeth at the tip are what allow for spot-on trimming permitting the plant to be manicured in a manner very similar to scissors in that it only removes the intended material while leaving the surrounding flower untouched.

Tooth section length: 2 7/8"

BEST USE

The long thin teeth and wide spacing make this blade ideal for manicuring freshly cut wet flowers.
