Offering a remarkable, eight (8) different rebounding angles, the 16A1 Kwik Back Rebounder gives players the opportunity to practice their ball control skills, receiving and returning accuracy, passing and even improve their reflexes - all without having to chase the ball. The Kwik Back Rebounder features a 5'4"H x 4'W, all-aluminum 1 1/2", "A" frame, natural-surface friendly design, and Kwik Button® Assembly.
