## A Solution For Our Customers

Across America; Municipalities, Police & Parking Departments, Waste & Sanitation, Universities are proud users.

“The Go4 quite simply is the most suitable parking enforcement vehicle operating today. The vehicle is the most maneuverable parking enforcement vehicle and affords the enforcement officer a high degree of safety and comfort. We have tested other vehicles, but continue to return to the Go4 as it provides the greatest overall return on investment.”

### Mark Lyons CAPP

Co-Chair International Parking Institute, Parking Division General Manager – City of Sarasota

**THE ONLY TASK SPECIFIC  
VEHICLE ON THE MARKET  
DESIGNED SPECIFICALLY FOR  
*PARKING ENFORCEMENT.***

It has a small automotive footprint, while providing features and functions to keep your parking operations moving efficiently and safely. With the latest in License Plate Reader (LPR) and chalking technologies integrated into the design, the GO-4 is a small but mighty powerhouse that drives an increase in revenue for your department and sustainability goals for your city.

- Reduce traffic interruption while performing tasks.
- The GO-4 allows your department to be part of the solution versus contributing to the problem.

- At only 54 inches wide with a super tough rollbar chassis. PEO's can safely perform their duties with ease. Our vehicle is very unique looking and creates a distinct look for your department. Citizens easily identify PEO's which creates a more friendly cooperative approach.
