## The New Rhino-Grip™ 8000 Interior/Exterior Universal Primer/Sealer (68000) product formulation has proven advantages:

### Stain Blocking

Rhino-Grip™ 8000 is formulated to block most stains, including water, smoke, ink and crayon.

**Testing Method Description:** Stains such as crayon, permanent marker, lipstick and oil are applied to a primer test board. A 3-mil drawdown of paint is then applied over the stain to determine whether the stain will bleed through the paint.

### Good Hide

Our Rhino-Grip™ 8000 provides an equivalent hide compared to the leading competitor.

### Resistance to Tannin Bleed-Through

Thanks to its special formulation, Rhino-Grip™ 8000 effectively blocks stubborn tannin stains from bleeding through.

### Low-VOC Formulas

The VOC level is less than 50g/L.
