**WORKLION Paper Trimmer Replacement Blades with Automatic Security Safeguard Design - A4 Paper Cutter Blade Refill (4 Pack)**

by WORKLION  
★★★★☆ 94 ratings | 10 answered questions  
#1 New Release in Paper Trimmer Blades

Price: **\$6.30 + FREE Shipping + FREE Returns**

Color: **Orange**

- Ideal for replacing dull blades on WorkLion, Firbon, LETION A4 paper cutter and paper trimmer.
- Professional blades are made of plastic and mold steel, sturdy and durable. With special triangle blade design, the blade in the protective case works only when you press on it, which is convenient and safe for daily use.
- Durable and sharp blade, max cut 12 sheets(80g/m2) paper every time. But cutting less paper can extend the useful lifetime of the blade better, highly recommended number is less than 5 sheets in a time.
- The blades can cut through photo, picture, card, coupon and much more paper products, cleanly and smoothly.
- 4 blades in 1 pack, well packaged and great price.

Have a question? Search for answers

**Question:** can it cut a one inch X 12 inch long triangle that ends in a point? This is for rolling paper beads.

**Answer:** It is recommended to draw a line before you cut this long triangle if you use this paper cutter.

WorkLion Direct

**Question:** [How do i cut paper more than 3.5 inches?](#)

**Answer:** The paper cutter is 14.2" long, so as long as your paper isn't wider than that, you should be fine. There's a video on the product page that might help you visualize.  
By Alexandra Hardy on August 19, 2019

**Question:** [Can this be used to cut card stock paper for business cards?](#)

**Answer:** Of course, it can! This paper trimmer can cut card stock (within 0.4mm) smoothly. Certainly cut your business card paper. Thanks.

I like this trimmer! It's portable and light and good quality I have a lot of documents to cut. I don't have to go to the library to borrow the trimmer. You know, the one in the library is heavy, and some times I have to wait for others to finish their cutting.

★★★★☆ **Nice Cutter...Good price!**

November 8, 2019

Color: Black | [Verified Purchase](#)

Will cut 12" material, says 10 sheets on package, but I doubt it. Price was good, but spend the extra dollar and get the fold out extender, which I mistakenly though this one had, even shows it on the instructions on the back of

**cutter. But otherwise so far sharp enough to cut easily through 651 vinyl.**

★★★★★ **Easy to use once you spend some time with it.**

November 25, 2019

Color: Black | [Verified Purchase](#)

As the title says, the paper cutter did cut 2, 3, 4, 5, 6, etc etc pretty easily but around 10 you would really need to press down hard, and around 11, you would need to make the paper go the the borders on the cutter and it would then cut but still it was difficult. It was the most hard on 12 pages. Keep in mind, folding a paper and making it 12 is not the same thing as 12 sheets of actual paper! I used individual sheets and did it that way. Cutting a straight line was impossible at first, I tried to predict where it would cut but I felt like a blind person reading brail and I still failed to cut a straight line. I use this thing to cut coupons from an internet source, so straight lines are important. I then learned a trick. Look exactly where the cutter is. You can press down gently to see the cutter, or you can make tiny dots in your paper with the cutter to see where it is at, then you take and you hold it down and then line the other side of the paper up on the grid they give you on the cutter, and then slice and it works perfect every time. I wish I had photos of it cutting straight, but I don't know how to really do that. Thank you for taking the time to read this, and you won't regret buying it once you learn the thing fully.

★★★★★ **Greatest thing since sliced bread.**

September 16, 2019

Color: Black | [Verified Purchase](#)

For less than ten bucks I got this thing for occasional trimming of print-at-home shipping labels. It's not heavy-duty, but neither was the price, and it works perfectly. It's compact. It's easy to use. It even comes in packaging that doubles as a sort of dust-protecting storage case.

★★★★★ **Exceeded expectations, great value!**

November 27, 2019

Color: Black | [Verified Purchase](#)

I'll admit, I wasn't expecting much, but this exceeded my expectations. I was able to cut not only paper, but it even cut through the Crafteria flexible magnet sheets. I made 120 1.5"x1" magnets from 4"x6" sheets (worked best with the magnet side up, not the paper side and you have to hold it very firm while pressing down hard when cutting). Since my line cutting skills are worse than a toddler, but I also didn't want to spend much since this is a one time thing, I am quite pleased with this spur of the moment purchase.

★★★★☆ **Ok so light usage**

November 26, 2019

Color: Black | [Verified Purchase](#)

Ok for light usage as it will really only cut 1 sheet of paper at a time. Does not cut very clean. But for what I need it for it will be fine as I needed a cutter that I can see exactly where I was cutting. I have a big paper cutter but it is expensive to change the blade and I can't see for sure where the far end will cut on a printed paper
