

30 Years of Education

Wayman Aviation has been launching aspiring aviators into the skies above Miami for over 30 years. Thousands of alumni are flying around the world today for JetBlue, LATAM, American Airlines, Lion Air and many more.

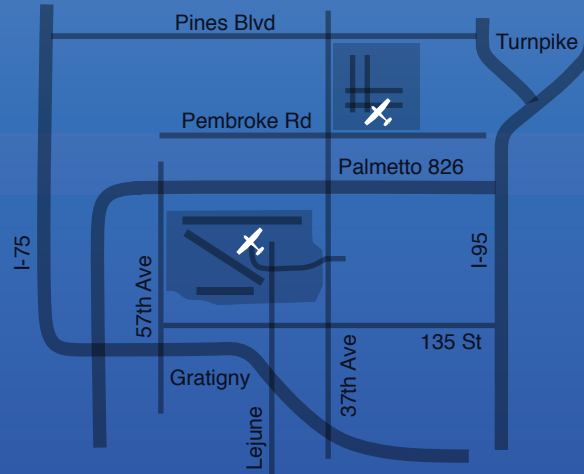

We strive to provide a leading edge aviation education from zero hours to professional airline ready pilots. The international staff of instructors offers a wide-range of experience and expertise. All of our aircraft are safe, clean, and meticulously well maintained, but our #1 goal is customer satisfaction.

Whether you are an experienced captain or spreading your wings for the first time, Wayman Aviation is here to help. We believe that Aviation Changes Lives.
