

**Office Action Response**  
**IMCORE**  
**App. No. 87/245,470**  
**Deadline: October 21, 2017**

**I. INTRODUCTION**

The Examining Attorney has initially refused U.S. Trademark Application No. 87/245,470 for the mark IMCORE (the "Mark"), covering the below services:

"Research and development of advanced learning technologies and teaching methods to identify approaches to extend the benefit of cancer immunotherapy to patients and collaborate to identify new treatment approaches, to rapidly initiate clinical trials and to aggregate and share data to accelerate progress in the field of cancer immunotherapy" (as amended) in Class 42;

(the "Application") on the basis of a prior pending application for U.S. Trademark Application No. 87264976 for the mark IMMUNOCORE. Applicant understands that upon receipt of Applicant's response to this Office Action, this Application may be suspended pending final disposition of the earlier-filed referenced application.

Applicant elects not to submit arguments at this time and requests that action on this Application be suspended pending final disposition of the prior pending application.
