

Stylebot: The copy editing chatbot

Stylebot is a convenient, customizable and conversational way to get answers to your copy editing questions. With this one-of-a-kind tool, you can transform any stylebook into a chatbot that can be easily integrated into your newsroom's workflow. The bot allows for easy editing so it can reflect your organization's policies and standards, and its friendly interface makes copy editing more accessible for journalists of all levels.

Stylebot is currently **[available for licensing \(https://usc.flintbox.com/public/project/55657/\)](https://usc.flintbox.com/public/project/55657/)** through the University of Southern California, where it was developed. If your newsroom is interested in trying out the bot, please contact Stylebot co-creator Laura E. Davis at **lauraeda@usc.edu** (**<mailto:lauraeda@usc.edu>**). You can also download **[our pitch deck \(images/stylebot_primer.pdf\)](#)** as a PDF.

You can see a video demo of Stylebot in action below!
