

# Oracle Code One Is Moving to Las Vegas!

Save the dates: September 21–24, 2020

Oracle is excited to offer a modern, state-of-the-art experience in Las Vegas for Code One and Oracle OpenWorld attendees in 2020. The city and its vast amenities are tailor-made for hosting large-scale events, and we look forward to bringing the industry's most comprehensive technology and developer conferences to this premier hospitality destination.

## Oracle Code One 2019 Highlights

### Video: Oracle Code One 2019 Recap

Check out this quick, entertaining video and relive the learning, fun and networking that Code One 2019 was all about. We hope to see you next year.

[Watch the video \(1:00\)](#)

### Keynote: Building Intelligent, Cloud Native Applications

Intelligent applications use machine learning to make suggestions, deliver personalized user experiences, and enable better decisions. Learn how to build applications that provide high performance at a lower cost.

[Watch video replay \(44:01\)](#)

### Oracle Rolls Out Oracle Cloud Free Tier—Always Free Services

Developers, students, and educators can explore the functionality of Oracle Autonomous Database and Oracle Cloud Infrastructure, including Compute VMs, Block and Object Storage, and Load Balancer-to build complete applications on Oracle Cloud.

[Get more details](#) [See what's included](#)

### How a Geek Dad Helps His Daughter Manage Diabetes

Oracle Cloud Engineer Todd Sharp built a smartphone app to calculate carb consumption and insulin doses using image recognition, a wireless food scale and nutritional data.
