

DON'T JUST "MAKE DO."

# MAKE RESEARCH HAPPEN.

Ripple helps researchers conquer participant recruitment and simplify participant management.

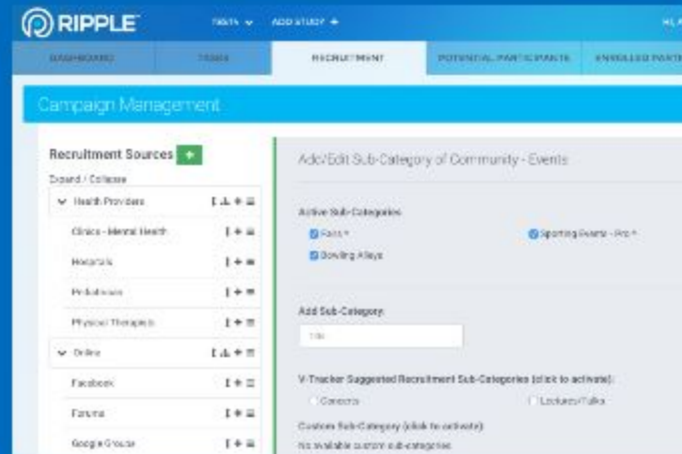

Ripple gives your team more time to do research!

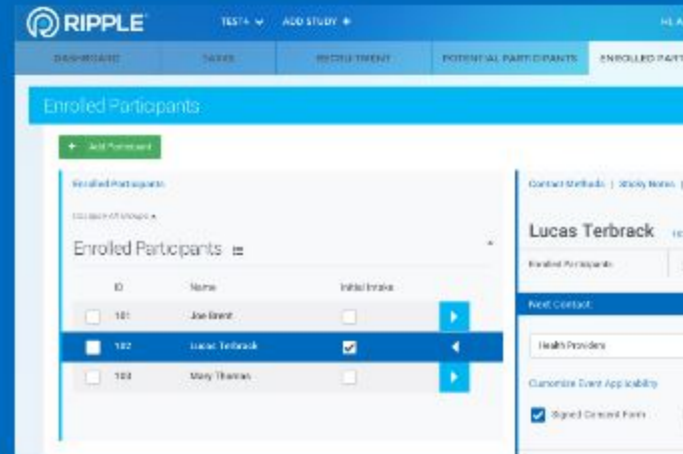

## SKILLS

Ripple's intuitive campaign creation and management tool gives your team new marketing skills that will help them develop more effective and efficient recruitment campaigns.

## TIME

Ripple's participant management interface streamlines and automates multiple tasks associated with participant tracking, ultimately giving your team more time to do research.

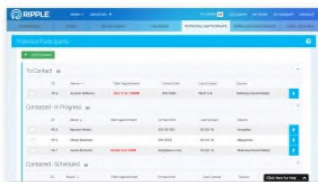

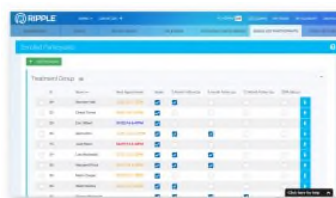

## INSIGHTS

With an impressive array of analytics about your recruitment performance, Ripple provides researchers with critical insights to predict the easiest and fastest path to study completion.

- Track potential participants by recruitment source

## TASK MANAGEMENT

- Go beyond participants: create lab projects and tasks
- Manage all recruitment, participant, and lab tasks in a single place
- Assign tasks to study staff and track staff performance
- Automatic email notifications of task assignment, completion, etc.

## OTHER FEATURES

- Enterprise-level security included in all plans
- HIPAA-compliant plans available
- Multi-study support with lab-level participant registry
- Import and export study data
- Complete web-based solution with nothing to install or maintain
- Calendar integration
