RECLAIM™ Panels are designed to provide a flexible, highly effective yet cost-efficient way to control noise and minimize visual distractions throughout the workplace.

Divide large areas into quieter, more functional spaces with RECLAIM Room Divider Panels.

Setup is easy. Lightweight panels simply zip together to create the length and look you need. Panels are tackable, making them ideal choices for brainstorming and collaboration spaces.

For quieter, more private individual spaces, add RECLAIM Desktop Privacy Panels. RECLAIM panels can be attached to most existing standing desks or fixed height workstations. Panels can be mounted at 1 of 5 different heights, giving each user the ability to choose the level of privacy or modesty they need to be more focused and productive.

 **Reduce noise, distractions AND landfills.** All our panels are made from 100% recycled PET eco-friendly materials. The core is 60% post-consumer. The fabric is 100% post-consumer.

No long wait times or special orders. By stocking an abundance of RECLAIM panels, Luxor is able to fulfill orders quickly while keeping costs down. Most orders placed by 2pm CT will be shipped the same day. When it comes to customer service, we're proud of our reputation for being one of the best in the business.

There's much to admire about the open office. The collaboration. The flexibility. Even the cost savings of reconfiguration as your company grows. But apparently having no walls and sharing workspaces can also undermine what the space was designed to do — increase communication and flow of ideas. According to experts, a noisy, disruptive open office can lower productivity and lead to job dissatisfaction. Until now, finding an acoustic solution to reduce distractions and increase privacy without compromising flexibility or aesthetics has been neither easy nor cost-effective.

Introducing **RECLAIM™ Sight & Sound Dampening Panels** from Luxor — the simpler, more affordable solution for minimizing distractions in today's open work environments.
