

All IN

He's a caving enthusiast, a stargazer and first-time father, and soon Matt Pelsor will add the title of local talk show host.

"All IN" is a program for all Hoosiers. It debuts on WFYI 90.1 FM Tuesday, July 16, and will expand to other public radio stations around Indiana beginning September 30. What will Matt talk about? Everything!

The show will touch on the issues and topics that excite and interest us, rooted in the belief that we can bring our passions and differences together in a civil, intelligent and non-judgmental environment. The program will not take live callers, but will include listener questions and comments through other communication channels (details to come).

"I love Indiana and I love stimulating discussions that make people think. Radio is an incredibly personal medium, and I can't wait to get started!"

- MATT PELSOR
