DESCRIPTION

Multivolt 36V Brushless Triple Hammer Impact Driver (Bare Tool)

Metabo HPT introduces the first cordless-corded solution that meets the power output demand on a jobsite. The MultiVolt Triple hammer is a lightweight powerhouse that offers up to 1,859 in-lbs of torque, 0 to 900 to 2,900 RPM, and 0-2,000 to 4,100 BPM to tackle the toughest jobs. The MultiVolt platform offers the power of a corded tool, the freedom of a cordless platform and the choice to operate all MultiVolt tools with a battery or plug into an outlet. Metabo HPT batteries use 21700 cells, delivering 1,440-watts of power, similar to 120V-15amp corded power tools. This allows for greater power and approximately 46% more capacity. The battery delivers 4 Ah of runtime in the Metabo HPT 36V platform and 8 Ah of runtime in the Hitachi-Metabo HPT 18V platform. Cordless or corded-you decide.

FEATURES

- MULTIVOLT: Powered by a MultiVolt 36 Volt battery or the revolutionary MultiVolt AC adapter (both sold separately)
- TECHNOLOGY: Increased driving speed, torque and decreases vibration via third anvil
- Power: Allows up to 1,859 in-lbs of torque, 0 to 900 to 2,900 RPM, and 0-2,000 to 4,100 BPM
- LIGHTWEIGHT: Only 4.1 lbs with battery for ease of use
- PROTECTION: Triple hammer is IP56 compliant to add a degree of protection against dust and water exposure
- SPEED SELECTION: 4-Stage speed selection for precision and control during a variety of applications
- BELT HOOK: Metal belt hook so the tool is always close at hand
- MOTOR: Increased power and extended durability with essentially no maintenance with the Brushless motor technology
- LED: Built-in LED light effectively illuminates dark work spaces
