Our Philosophy

Leave Your Mark

At Shiel Sexton, quality is about much more than standardized forms and corporate manuals, it's about a personal commitment to our craft. Our view of quality extends to all the little, everyday things we do to make your project successful. Don't worry – we use a great big Quality Control manual full of standard policies and procedures, but that's just one of the tools in our quality arsenal. Our key resource is our pledge to make a positive, lasting impact. Our mantra is Leave Your Mark... that extends to everything we do.

At Shiel Sexton, our Mark is our signature, physical proof of exceptional quality and unerring work execution. Like the craftsmen of ancient times, when we leave our mark we are taking personal responsibility for the work we perform. We are holding ourselves accountable for every decision we make and every service we provide. Our mark is our quality guarantee. This means no task is complete until we have left our mark.

Let us Leave Our Mark on your next project.
