**Aquaculture Supplies**

Aquatic Eco-Systems is your best source for aquaculture equipment.

At AES, our technical department is full of aquaculturists and biologists with real-world industry experience. We know the importance of efficiency in a field with such little room for error. As a result, we've got a massive selection of aeration equipment, biological, chemical, mechanical and specialty (UV, ozone, etc.) filtration supplies, external and submersible water pumps, tanks, fish nets, aquaculture feed and feeders, hard-to-find plumbing parts, lab equipment, water quality meters and reference materials to help you run your hatchery or fish farm successfully. We also sell complete aquaculture systems, which are useful for education, business and research.

*Our goal is to be your one-stop shop for aquaculture supplies.* If you have trouble finding what you're looking for, contact AES customer service and let us find it for you.

**Lake & Pond**

AES is a world leader in lake management, improving well over 250,000 acres of lakes since 1978. We have everything you need to keep your lake or pond in top condition and the extensive knowledge to help you use it. For example, lake aeration is an earth-friendly method of getting healthier water and fish. AES also carries an extensive line of water testing and sampling equipment, algaecides and herbicides, chemicals, feed and feeders, fish and predator traps, fountains, de-icers, diffusers and lakeshore equipment to control erosion and weeds, all designed with the continued improvement of your lake or pond in mind.

*Our goal is to be your one-stop shop for lake and pond supplies.* If you have trouble finding what you're looking for, contact AES customer service and let us find it for you.

**We also provide equipment sizing services.** Fill out our online sizing form.

**Aquarium Supplies**

Looking for supplies to keep your aquarium beautiful? Whether you're housing fish, coral, plants or all of the above in fresh or salt water, AES has what you need.

We've got aquariums and tanks to display them and aeration and filtration systems to keep them healthy. You can also find other aquarium accessories here, like chemicals and chemical media, lighting, nets, external and submersible water pumps, aquarium food and feeders, heaters and chillers. We also have cleaning supplies, medications, reference books and videos, substrates, hard-to-find plumbing parts and meters and test kits. We carry it all with your system's—and its inhabitants'—well-being in mind.

*Our goal is to be your one-stop shop for aquarium supplies.* If you have trouble finding what you're looking for, contact AES customer service and let us find it for you.

Teaching aquaculture in the classroom is a great way to incorporate the subjects of biology, chemistry, ecology, mathematics, design, engineering, marketing and economics into a single curriculum.

AES supports the educational possibilities of aquaculture, and we make it easy for teachers by carrying complete fish farming systems, reference books, lab equipment, feed and much more. We also carry hydroponics equipment.

*Our goal is to be your one-stop shop for aquaculture education supplies.* If you have trouble finding what you're looking for, contact AES customer service and let us find it for you.
