Yeah baby! Sometimes those studio shots just don't do our trees' understated beauty justice. If you really want to see our trees in action, you gotta go to the source, real live Treetopia tree owners! Here is what our happy trees look like in the wild. If you've been kind enough to send us your photos, and they aren't here yet, fear not! We have more to post, this is just the first batch. Thanks for your patience!

Balsam Spruce

Bedford Falls Fir

Bitmore Pine

Black Tiger Tree
