## Implementation Services

Print A A A

### JDA Implementation Services Can Help You Make the Most of What You Have Today and Ensure Your Success in the Future

You've already made the right solution investment with JDA, but it's not just about the software. It's about making sure your investment can be up and running fast, optimized to your specific business needs and generating a quick return on your investment. JDA's Consulting Services has the unsurpassed knowledge, insights and track record to help you achieve your goals.

We are uniquely positioned to deliver comprehensive services across all areas of the value chain, from manufacturing all the way to finished goods at the point of sale. We can help you improve forecast accuracy, increase inventory turns, lower carrying costs, improve on-time delivery, maximize return on assets and optimize your sourcing and distribution network.

With more than 5,800 customers worldwide and experience with thousands of implementations, we understand the challenges you face today – no matter what your industry.

Beyond your initial project, Implementation Services provides an array of advanced offerings to protect and enhance the value of your JDA investment including:

- Demand Classification
- Upgrade Assessment
- Network Design Analysis
- Health Check
- RFQ Collaborative Logistics Sourcing Service
- Enterprise Security Planning
- Modification Support
