## QI 101 Toolkit

Print

### Section I. Introduction to Quality Improvement and Use of FOCUS-PDSA Model

This section provides an overview of QI as a valuable approach to regularly assessing and improving the care and services you provide to your patients. This includes a brief description of each step in the FOCUS-PDSA model, which can help to structure your QI efforts.

### Section II. Assessing Your Knowledge of QI

You can use this section to assess your baseline knowledge of QI, even if you are a beginner. After taking the "quiz," you can [review the detailed answers](#) which will further enhance your knowledge of QI, whatever level it is, to start with.

### Section III. Reviewing QI with Your Team

This is a 15-slide presentation that can be used to provide a basic overview of QI and of the FOCUS-PDSA Model to your teammates or anyone else who might be involved with your QI efforts. You can customize these slides with the name and/or logo of your organization or practice.

### Section IV. Worksheets for Conducting QI Project Using FOCUS-PDSA Model

To help you conduct your own QI project, this section includes nine worksheets, each corresponding to a stage in the FOCUS-PDSA Model. The worksheets are designed to guide your efforts by providing easy, step-by-step instructions.
