

AKF Announcement

ICAM • Intelligent Connectivity / Asset Management™

ICAM™

AKF is pleased to announce our newest service. Rooted in the precepts of Data Center Infrastructure Management (DCIM), our Intelligent Connectivity / Asset Management (ICAM) turnkey service will document & track all aspects of your organization's IT and facility assets.

OUR HANDS ON SERVICE

Infrastructure management solutions should be scalable and adaptable to any environment, while providing ease of use and security. Through AKF's collaboration with Cormant, we are able to provide a customized solution for optimal management of IT and facility assets. AKF's ICAM™ turnkey services include:

- Asset Control Management
- Inventory Tracking
- Plan & Equipment Documentation
- Power and Data Connectivity
- Customized Dashboard Views
- Software Configuration
- Implementation & Training
- Database Continuity

SOFTWARE FEATURES

The *Cormant-CS* data center infrastructure management (DCIM) solution has been developed by Cormant, Inc. and is designed to consolidate all information about our client's IT and facilities infrastructure (assets and related power, connectivity, space, location and status information), and will track that infrastructure wherever it is.

Cormant-CS's portability enables us to apply it to all areas where IT infrastructure is present, including data centers, telecommunication rooms, work areas and campus environments. For more information, visit Cormant, Inc.'s website at www.cormant.com.

ABOUT AKF

AKF is a full-service consulting engineering firm serving public and private sector clients across the United States and around the world.

This new service combines the resources of AKF with some of the most experienced technology experts in the field. Our Registered Communications Distribution Designer (RCDD) specialists, along with Cormant, will be leading this new venture.

"We operate from a team approach, working closely with clients to produce fully documented and highly integrated solutions. We believe in a hands-on approach during the implementation process." — Greg Roberts, Principal
