BBM Music

BBM Music

Choose from a catalogue of millions of songs. Connect with friends and grow your collection.

STEP 1
Create your music profile

Select 50 songs from a catalogue of millions.

STEP 2
Add friends and expand

Invite your BBM™ friends to become your BBM Music friends, and you'll get access to their 50 songs too. The more friends you have, the more music you'll have.

STEP 3
Share and discover more

Create and share playlists, comment on your friends' music or chat in real time and connect on a whole new level.

Mix music and friends

Build custom playlists for parties, road trips or workouts and share them with your BBM Music friends. And since BBM Music is a BBM connected app, new contacts with BBM Music are recommended to you right from the app itself.

Keep your songs fresh

Each month you and your friends can swap out 25 of your 50 profile tunes, so you can keep discovering new music to share and enjoy.

Access your tunes anywhere

Songs you've listened to from your profile and your friends' music profiles can be cached to your SD card for easy offline listening.
