BBM Video with Screen Share

Share and be seen with BBM Video

Switch your BBM chat to a BBM™ Video conversation with just a tap and catch up face-to-face. The new Screen Share feature lets you show photos or your browser, or review a business document. You can even share the view from your camera. Enjoy this new BBM experience on BlackBerry® 10 smartphones.²

BBM Voice

Say it all. BBM, now with Voice.

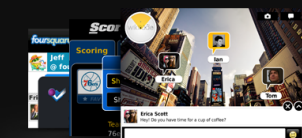

For the times when you want to hear a friend's laughter instead of reading their LOLs, BBM now comes with BBM™ Voice.³

Switch your BBM conversation from text to a call and speak to your BBM contacts, from virtually anywhere they are in the world for free over Wi-Fi®. You'll instantly know whenever BBM friends are available to call.

To enjoy BBM Voice, you need to have a BlackBerry smartphone with BlackBerry® Device Software v5 or higher. Then simply update to BBM 7 to get the new feature.

BBM connected apps

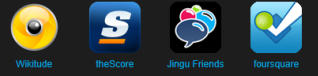

Socialize over apps

With BBM connected apps, you can chat with BBM friends within your apps and select BBM contacts right from the app to invite them to join in on the fun or download it.

Facebook®, Twitter®, BBM™ Music, BlackBerry® Travel™ app and BlackBerry® World™ are now BBM connected apps. So you can share your Facebook status update, Tweet, songs, travel itinerary or apps directly to contacts through BBM, without ever leaving the BBM connected apps.
