### Concerned About

a repair, we have the exact stain for your specific job.

**Stains Color Wheel.**

Place your cursor over the color wheel to the left and the finish color will display below.

With Mr. Sandman, rest assured you and your loved ones will be safe from any harmful chemicals or dust during our visit to your home.

Using specialized equipment for virtually dust-free sanding, and with proper control we are able to control the hazards during installation or refinishing. Many older finishes through 1986 contained some amounts of lead.

When our workers are done a project is complete, your floor is completely sealed and ready for everyday use. Children and pets are protected from ingesting any harmful materials from the floor and contact with the floor is perfectly harmless.
