

Installation

Adding Appreciable Value.

In addition to new homes built each year that choose a hardwood floor covering, many existing homeowners throughout Pennsylvania are also realizing the added value of a quality hardwood floor. Many are choosing a healthy alternative by tearing up carpets, or tile and adding the beauty and quality of wood to their homes. Unlike more disposable investments such as painting, wallpaper and window dressings, Mr. Sandman's work will appreciate your investment. It's the perfect solution for virtually every room in the house.

The Process.

Generally speaking, new installs take approximately 2 1/2 weeks from delivery to finish. As evidenced by our customers, the job is done precisely as quoted--on time and on budget, following specific NWFA moisture/install guidelines and standards.

Custom Work.

We can design anything wood floor related. Visit our [showroom](#) to find out more.
