## NEWS & UPDATES

Hydroelectric Power Makes Big Comeback At US Dams [READ MORE »](#)

### The future this way.

We've reached a fork in the river. Either we continue our significant reliance on carbon-based power, or we adopt a more balanced mix of natural, renewable energy. We choose the latter. Hydropower has tremendous potential to provide clean dispatchable electrical power. Properly developed, it will generate long-term benefits for communities, dam owners, investors, developers, and for our planet.

[GO HYDRO](#)

### Plugged in leaders.

Led by former U.S. Under Secretary of Energy, Dr. Kristina M. Johnson, our expertise in the hydropower industry is unsurpassed. Our team includes world-class experts in hydro operations, financing, investment, permitting, regulations, and environmental issues. Our knowledge of hydropower runs deep and wide.

[ABOUT](#)

### Projects that pay.

Floodgates of opportunity are opening in hydropower all across the country. Through much analysis and research, we have developed a proprietary pipeline of opportunities for electrifying existing dams and upgrading existing hydropower plants. We have several projects underway with more around the bend.

[PORTFOLIO](#)

## Join our team.

Enduring Hydro is a new company that invests in, develops, and modernizes hydroelectric facilities, and provides consulting services on project management, regulation, and development of hydroelectric power and other clean energy resources. We are currently looking for a new team member.
