10-YEAR VISION

40,000 PEOPLE CROSS THE LINE OF DECISION AND FOLLOW CHRIST THROUGH OUR MINISTRY

We understand that regeneration is actualized by the Holy Spirit when one turns to Jesus Christ. We are not assuming the power to transform, only declaring the passion to be steadfast witnesses with an anticipation of harvest.

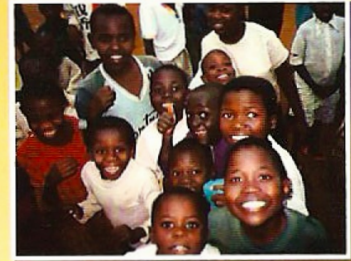

40 CENTERS ESTABLISHED WORLD-WIDE

Great good comes through a Vapor Sports plant. Beyond the spiritual ministry, plants are centers for humanitarian aid. We serve water to thousands, fund education, head community development efforts, fund sanitation projects, host medical clinics, create life-on life accountability, and so much more. The nature of our work and the reality of the hurting places of our world gives us a sense of urgency to get these plants up ASAP.

GROSS \$10 MILLION PER YEAR

It costs money. From physical projects and curriculum to humanitarian aid and supplies, each plant needs cash. We believe in the necessity of our ministry, know that nothing is impossible, and anticipate the partnerships that will bring this to fruition.

LIFE IS SHORT.
DON'T SPEND
YOURS ON THE
SIDELINES.

PURPOSE STATEMENT

We utilize the tool of Sports combined with the truths of God to reach, affect change, and develop lives and souls in third world environments.

"Revolution can not be birthed in society until transformation invades the hearts of its members."
President, Vapor Sports Ministries

MISSION STATEMENT

We partner with already existing missions in high-needs areas. We send a rep to develop and disciple local leadership, build a Vapor Sports Complex, and pioneer a Vapor Sports League. Our holistic efforts and life-on-life ministry are conducted through the league.

"Give people a reason to live and the answer to life and watch the combination change the world."
President, Vapor Sports Ministries

VAPOR SPORTS 12TH MAN CAMPAIGN

The 12th man gets the job done without being one of the 11 on the field. A 12th man provides the support necessary to accomplish the goal. He is the backbone of the team and without him everything will fall apart. It takes finances to conduct leagues, feed, educate, and provide clean water. Vapor Sports touches thousands of lives and our vision is world changing, but it cannot be accomplished without your involvement. We ask you to cross the line of decision and help Vapor Sports Ministries Reach into the most hopeless corners of the world.

LOCAL COMMUNITIES

Vapor equips local communities of believers to effectively minister to their own people through sports. We provide a relevant and effective avenue for holistic and spiritual ministry to be conducted. We use sports as an avenue to help these bodies reach out to their people and serve the extending public. We finally aide these bodies by leaving the holistic ministry complex in the hands of appointed leaders.

INDIGENOUS

Vapor's goal is to plant entirely self-sustaining works. Vapor Sports Ministry complexes are produced in such a way to empower our national workers to assume full responsibility of plant maintenance and advancement. Our involvement is to be viewed through the lens of equipping vs. controlling and our process revolves around this principle.

LIFE ON LIFE DISCIPLESHIP

We send representatives to train, teach, enable and empower local citizens from the mission. We conduct and facilitate effective discipleship for all national Vapor staff in order that they may be equipped to work with their own people. Our staff then becomes the equippers as they spiritually and holistically minister in our "life on life" sports league format.

THIRD WORLD ENVIRONMENTS

Our passion is to specifically reach out to the "undesirable" places of our world. We have a heart to help those who cannot help themselves. We target poor and economically unstable environments to plant Vapor Sports Ministries plants in.

SOCCER LEAGUE IS A CENTER FOR:

Child Education-program sponsoring individual's educational needs

Well Projects-providing clean water to thousands of desperate people

Community Projects-from playgrounds to walk ways, we aide the surrounding community

Disease Prevention-children taught aids prevention and health enhancement
