### Description

Enjoy fast and fun mobile conversation! Snap a photo or a video, add a caption, and send it to a friend. They'll view it, laugh, and then the Snap disappears from the screen – unless they take a screenshot!

You can also add a Snap to your Story with one tap to share your day with all of your friends.

The best conversations happen when both friends are present, so we'll let you know if your friend is Here in your Chat so that you can give each other your full attention. And if you're both Here, simply press and hold to share live video – and Chat face-to-face!

Happy Snapping!

**Horrible Update But Good App ★★★**  
 by Spuds Daughter

I was in love with snapchat until I installed update, now the app crashes when I'm about to post a snap to my story that I will never be able to make again. Also, i have people that added me or I added them and they don't pop up in my friends but it shows that that viewed my story. Please fix these issues snapchat. I don't want to have to stop [...More](#)

**Best friends option ★**

Bring back best friends option. This is ridiculous. Stop changing something that doesn't need to be changed. Why do you think other apps fail, because of the stuff you are doing now. Get rid of discovery. Bring back original snapchat, it's what the people want. Look at your reviews. They tank after each update. Keep it simple stupid. Mama always [...More](#)
