Launch your own advanced crowdfunding page

The most flexible crowdfunding platform for ideas, pre-orders, and sales. Built to power your business, brand, or organization.

Before your campaign

Use Your Branding

Bring your existing logos, colors, and identity to your site. Choose from pre-existing themes or dive in and customize with HTML/CSS.

Use Your Custom Domain

Prefer to use your existing domain, say, www.yourdomain.com? Set it up in just a few clicks.

Easy to Launch

No code required. With our admin dashboard and tools, you'll be up and running in minutes.

Run multiple campaigns

Launch multiple fundraising or pre-sale campaigns simultaneously.

Setup Tutorials and Video Walkthroughs

We're here to make the process easy. Our helpful resources take you through the simple process of starting a campaign.

During your campaign

Detailed Analytics and Retargeting

Capture more contributions and donations by better understanding your customers and donors.

Credit Card Processing

Integration with the Tilt API allows for a smooth checkout experience. We take care of all credit card processing.

International Payments accepted

Accepting all major credit cards from all over the world.

Generate promo codes for customers

Generate and share promo codes for a discount on your product.

Get Support At Any Time

We're always available and delighted to help at questions@tilt.com.

After your campaign

Simple Pricing

Free to start — only pay a small fee on transactions for successful campaigns.

Automatically Convert to Pre-Orders

Don't lose sales when your campaign ends. Keep accepting pre-orders past the campaign expiration date.

BackerKit Integration

Full support for the most popular post-campaign contributor fulfillment tool.

Start Another Campaign Fast

Your centralized site allows you to bank on your success and launch a new campaign with almost zero set up.

Build a branded, beautiful, and effective crowdfunding page

Tilt API Specs

The Tilt API opens up the opportunity for developers to:

- Offer a group payments option in their applications.
- Offer a pre-sales commerce option in their applications.
- Develop a crowdfunding application (i.e., single project model like Lockitron or multi-project model like Kickstarter).
- Develop a social fundraising application.
- Enable the collaboration around these styles of commerce.
