

JOSH MANDEL
STATE TREASURER OF OHIO

STAR

State Treasury Asset Reserve

THE PROGRAM

The State Treasury Asset Reserve of Ohio (STAR) allows all Ohio government subdivisions, including counties, cities, school districts, townships, villages, public libraries, fire districts, park and recreation districts, and transportation boards, to invest in a highly-rated public investment pool. The State Treasurer's office acts as an advisor and administrator, managing STAR's portfolio and working to maximize returns for government subdivisions.

Since 1995 STAR has maintained Standard & Poor's highest rating of AAAM, a testament to the soundness and security of the fund for a local government investment pool. In fact, in 2011 STAR again received a AAAM rating from Standard & Poor's even amidst global economic uncertainty and downgrades of 14 other local government investment pools nationwide. STAR's AAAM rating affirms that the investments of Ohio school districts and local governments remain safe and secure in this top-rated fund, while generally earning higher yields than comparable investment options.

Pooling investments through STAR provides a powerful resource for government subdivisions. STAR Ohio offers increased earning power of a sizable pool. This program allows public fund managers, regardless of size, to pool their investments enabling all participants equal buying power and the ability to receive the same rate of return on their investment.

INVESTMENTS

STAR funds are invested in: U.S. government agency securities, eligible commercial paper, money market funds and collateralized bank deposits.

INVESTOR BENEFITS

Investors are offered 24-hour access to information on their accounts by calling our toll-free access line 1-800-648-STAR (7827). The fund permits daily deposits and withdrawals, even if the deposit is only for 24 hours. Investment yields are generally higher than local governments can attain through their intermittent investments of smaller amounts of money. Full-time portfolio management is provided by professional State Treasurer personnel. Cost of administering STAR is among the lowest in the country. State statutes under the Uniform Depository Act are strictly followed. Daily rates are posted at: www.STAROhio.com.

INVESTOR DATA

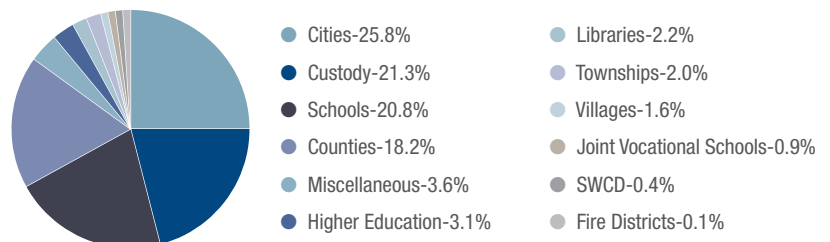

As of June 30, 2015 (fiscal year end):

Assets: \$3.4 billion **Current Yield:** 0.07% **Rating:** Standard & Poor's: AAAM (highest rating)

Investment Policy

The investment objectives of STAR are the preservation of capital, the maintenance of liquidity, and providing current income. Since inception, STAR has provided participants over \$4 billion in interest while never losing invested principal or limiting participant withdrawals. (STAR's Investment Policy Statement is available at www.STAROhio.com)
