MOBILE & BIOMETRIC ACCESS CONTROL TO BUILD IN 2016 WITH INCREASED NEED FOR PERIMETER SECURITY

While the access control market typically moves at a near glacial pace, 2015 brought quite a bit of news to the marketplace, including the rise in advanced biometrics,

the development of more and more mobile applications for access control and important acquisitions that put smaller manufacturers on the map.

JOIN US AT ISC WEST TO DISCUSS ACCESS CONTROL TRENDS IN THE EDUCATION SECTOR

No campus is immune to threats of crime, violence or disruptions that can jeopardize safety and impede learning. Join our esteemed panel as they discuss what universities must take into account when choosing access control solutions, how they use specific security products to address threats and how they handle emergency situations while utilizing this technology.

More details to come as information becomes available. Be sure to keep an eye out for our complimentary registration link.
