Provide Feedback

This book is an essential resource that will guide you through setting up, creating, and maintaining interactive notebooks for skill retention in the classroom. High-interest and hands-on, interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing, and other important skills while creating personalized portfolios of their individu... [Read More >](#)

This is an excellent resource to help start students with notebooking! It provides all the basic information and examples to jump start an interactive lesson.

Yes, I recommend this product.

Are you using the one that is aligned to the Common Core Standards or did you find one that was aligned to the TEKS for 5th grade? I want to buy one, but I want one that is aligned to the TEKS.

Meets Expectations

I teach 6th grade math and, while this book is labelled 5th grade, I will be able to use most of the resources in my class. I rely on Interactive Notes to deliver notes, examples, and core curriculum. I am always on the lookout for creative ways to engage my students -- this book fits the bill! As a veteran 30+ year teacher I know what works and this book will assist me in reaching my goals this year.

Yes, I recommend this product.
