these challenges and turn them into opportunities. We build a wide array of products, from sub-assembly to complete manufacturing, and we continuously develop new and optimized services that support the full scope of our customers' most pressing needs. These new and expanded services span across all of our business units and include product design, materials science expertise, direct fulfillment and master data management.

With capabilities like these at our disposal, Jabil is a full-service and fiercely collaborative global supply chain and manufacturing solutions company. It's in that spirit that Jabil's Fulfillment & Distribution team works in hand-in-hand with the Supply Chain Management team to develop and provide the highest possible customer service levels at the best possible costs.

### Jabil's Intelligent Supply Chain

Jabil's Intelligent Supply Chain team supports all Planning team and Supply Chain Management team functions and provides total landed cost analyses to support footprint and business placement decisions.

## The Rise of the Intelligent Digital Supply Chain

Posted July 21, 2016

Many consider Henry Ford and the automotive assembly line to be the birth of the modern supply chain. In this model, suppliers distribute raw materials to manufacturers that distribute finished products to distributors who provide select amounts of that product to retail outlets that ultimately sell products to you. Over the years we've seen incremental changes that streamline and perfect this formula, but for the most part, it's been an evolution. The traditional supply chain model has served us well, creating unprecedented levels of global wealth and opportunity. But...In recent years, 6 new pressures are stressing the system. Check out the Slideshare below to find out what these new supply chain pressures are. [More](#)

Intelligent Digital Supply Chain, Supply Chain Management

## Welcome to the Era of Digital Manufacturing

Posted July 15, 2016

Rush LaSelle, Jabil's Director of Automation, explains how many companies are revisiting age-old manufacturing strategies and embracing the Digital Enterprise transformation. [More](#)
